Portfolio: islamyasser424-design.github.io/portfolio-/

PROFESSIONAL SUMMARY

Data Analyst with hands-on projects in Power BI, SQL/MySQL, Python, Excel and statistics, complemented by professional experience coordinating workload distribution across approximately 900 employees. Skilled in DAX, Power Query, data modeling, KPI and SLA monitoring, capacity planning, backlog analysis and building internal operational dashboards to improve reporting and decision-making. Helped improve average daily task delivery by 87.5% per employee (0.8 to 1.5) through analysis and monitoring. Developed projects in contact centers, sales, e-commerce, logistics and HR.

TECHNICAL & OPERATIONAL SKILLS

Business Intelligence: Power BI, DAX, Power Query (M), Excel, Power Pivot, KPI dashboards, What-If analysis

SQL & Databases: MySQL, multi-table joins, CTEs, subqueries, window functions, relational database design

Python & Statistics: Python, Pandas, NumPy, Matplotlib, Seaborn, Jupyter, EDA, descriptive statistics, probability, variance, standard deviation

Data & Operations: Star/snowflake schemas, data quality, capacity planning, resource allocation, workload balancing, SLA compliance, backlog management, RCA, operational reporting

Other: Client/internal dashboard monitoring, stakeholder coordination, Slack, Google Sheets, Google Apps Script, Tableau, Looker Studio

PROFESSIONAL EXPERIENCE

Micro Engineering Egypt (MEEG) - METI Company | Cairo, Egypt

Workforce Management & Workload Assignment | **June 2026 - Present**

- Coordinate task distribution and resource allocation across approximately **900 employees**; plan capacity and rebalance workloads across teams and floors based on demand and available staffing.
- Contributed to increasing average task deliveries from **0.8 to 1.5 per employee per day (+87.5%)** by analyzing team-level KPIs, quality, attendance and active time, and rebalancing workloads.
- Manage task backlogs and SLA compliance, prioritize overdue work and coordinate with Team Leaders to address delays and operational bottlenecks.
- Perform root cause analysis (RCA) of performance gaps; recommend corrective actions and follow up on implementation and results.
- Prepare daily, weekly and monthly operational reports; **build internal dashboards when needed** to simplify task tracking, KPI visibility and workload monitoring.
- Communicate client requirements and performance updates to stakeholders; share reports and coordinate operational follow-up through Slack.

Technical Trainer - Data Annotation | **September 2025 - May 2026**

- Delivered training on annotation workflows and quality standards; reviewed recurring errors and coordinated corrective training.

Quality Control Technician - Data Annotation | **September 2024 - September 2025**

- Audited annotation quality; maintained Excel-based error trackers and audit dashboards to monitor defects and accuracy.

FP/QA Labeler - Data Annotation & Quality Assurance | **September 2023 - September 2024**

- Performed first-pass labeling and quality checks against project standards and taxonomy guidelines.

iSON Xperiences | Cairo, Egypt

Technical Team Support & Customer Operations | **May 2022 - September 2023**

- Resolved escalated technical and customer issues and coordinated service-level follow-up across operations teams.

SELECTED ANALYTICS PROJECTS

Enterprise Sales Analytics & Dimensional Modeling | **SQL / MySQL**
github.com/islamyasser424-design/SQL-Quiz-4

- Designed a relational sales database using a five-table fact-and-dimension schema for analytical reporting.
- Wrote SQL using multi-table joins, CTEs, subqueries, aggregations and window functions to explore sales performance.

Salla - Contact Center & Workforce Analytics | **Power BI / Power Query / DAX / Deneb**
github.com/islamyasser424-design/SALla-call-center-Dashboard

- Built an executive dashboard analyzing **1,744,885 call records** across service quality, demand forecasts and agent productivity.
- Combined three monthly datasets in Power Query; created DAX KPIs for service level (91.1%) and answer rate (98.7%).
- Visualized a **28.4% gap** between actual and forecast demand with interactive Deneb / Vega-Lite charts.

AdventureWorks - Sales Performance | **Power BI / DAX / Power Query**
github.com/islamyasser424-design/AdventureWorks-Dashboard

- Built a multi-page dashboard analyzing **$24.9M revenue, 25.2K orders and 17K customers**.
- Used DAX and dimensional modeling to assess sales trends, product margins and regional performance.

Olist - E-Commerce & Logistics Analytics | **Excel / Power Pivot**
github.com/islamyasser424-design/Olist-E-Commerce-Dashboard

- Analyzed **99,441 orders**, identifying **7,826 late orders** and flagging **11,277 potential payment discrepancies**.

Logistics Vision - Fleet & Supply Chain | **Power BI / DAX / Power Query**
github.com/islamyasser424-design/Logistics-Vision-Fleet-Supply-Chain-Analytics-Dashboard

- Developed a nine-page dashboard with dimensional modeling and What-If scenarios covering fleet and route KPIs.

HR360 - People Analytics | **Power BI / DAX**
github.com/islamyasser424-design/HR360

- Analyzed **1,470 employee records**, **237 exits** and **16.1% attrition**; reported workforce and retention trends.

Additional portfolio: Uber mobility operations, Adidas sales, Amazon supply chain, SuperStore profitability and Coffee sales analytics.

EDUCATION & TRAINING

Helwan University, Faculty of Arts | Bachelor's Degree, 2025
Instant Software Solutions | Specialized Data Analysis Training Program (Completed)
Coursework: SQL/MySQL, relational data modeling, exploratory data analysis, DAX and Power Query ETL.
