PROFESSIONAL SUMMARY

Data Analyst with nine portfolio projects in Power BI and Excel and a professional background in data quality assurance, workforce coordination, and performance monitoring. Hands-on experience in Power Query, DAX, dimensional modeling, and KPI dashboards across sales, e-commerce, logistics, and workforce analytics. Brings SQL/MySQL knowledge and experience analyzing operational audit data to identify patterns and communicate findings.

TECHNICAL SKILLS

Business Intelligence: Power BI, DAX, Power Query (M), Excel, Power Pivot, interactive dashboards, What-If analysis

Data Analysis & Modeling: SQL/MySQL, joins, data extraction, star and snowflake schemas, fact and dimension tables, data cleaning, EDA, KPI reporting, trend and variance analysis

Operational Analytics: Data quality assurance, error tracking, SLA monitoring, workload allocation, capacity planning

Additional Tools: Python, Jupyter Notebooks, Google Sheets, Google Apps Script, Tableau, Looker Studio

SELECTED ANALYTICS PROJECTS

Independent portfolio case studies | Project repositories linked below

[AdventureWorks — Sales Performance](#)

Power BI | DAX | Power Query | Star and snowflake schemas

- Built a multi-page dashboard linking sales, customer, product, date, and territory data; developed DAX measures for month-over-month growth and return rates.
- Analyzed \$24.9M in revenue across 25.2K orders and 17K customers to compare product margins and regional sales performance.

[Olist — E-Commerce & Logistics](#)

Excel | Power Pivot | Relational modeling

- Modeled 99,441 orders across three analytical views covering financial performance, order breakdowns, and delivery timelines.
- Identified 7,826 late orders associated with \$1.35M in revenue and an average 10-day delay; flagged 11,277 potential underpayment discrepancies for investigation.

[Logistics Vision — Fleet & Supply Chain](#)

Power BI | DAX | Power Query | Dimensional star schema

- Built a nine-page dashboard linking trip facts to driver, vehicle, and route dimensions; created What-If parameters to explore fuel costs, route profitability, and driver safety indicators.

[HR360 — People Analytics](#)

Power BI (PBIP) | TMDL | DAX | Decomposition Tree

- Built a four-page report analyzing 1,470 employee records, including 237 exits and 16.1% overall attrition, with measures for headcount and retention.
- Used Decomposition Tree analysis to explore attrition by role, department, and salary tier; identified 30.5% attrition among employees working overtime.

[Uber — Mobility & Operational Performance](#)

Power BI | DAX | Power Query | Dimensional star schema

- Built a five-page report linking bookings to trip status, vehicle, and calendar dimensions; centralized DAX KPIs to analyze completion rates, fares, and driver versus customer cancellations.

PROFESSIONAL EXPERIENCE

Micro Engineering Egypt (MEEG) — METI Company | Cairo, Egypt

Workforce Management & Workload Assignment

June 2026 – Present

- Allocate daily tasks and balance workloads across operational teams to support consistent throughput and timely queue completion.
- Use productivity trends and capacity planning to assess resource requirements and identify operational bottlenecks.
- Monitor daily output, team utilization, and SLA completion metrics to support workload decisions.

Technical Trainer – Data Annotation

September 2025 – May 2026

- Delivered onboarding training on annotation tools, taxonomy guidelines, and quality control workflows.
- Analyzed quality audit logs to identify recurring error patterns and develop targeted corrective training.
- Created standard operating procedures (SOPs), grading rubrics, and training documentation to standardize labeling practices.

Quality Control Technician – Data Annotation / Labeling

September 2024 – September 2025

- Audited image, text, and video annotations against project criteria to validate training data quality for machine learning models.
- Maintained Excel error trackers and audit dashboards to categorize defects and monitor annotator accuracy.
- Collaborated with operational leads and project managers to resolve taxonomy ambiguities and calibrate edge cases.

FPI/QA Labeler – Data Annotation & Quality Assurance

September 2023 – September 2024

- Performed first-pass labeling and secondary quality checks on multimodal datasets while maintaining daily production output and adherence to taxonomy guidelines.

iSON Xperiences | Cairo, Egypt

Technical Team Support & Customer Operations

May 2022 – September 2023

- Resolved escalated technical incidents and customer inquiries through voice, live chat, and email.
- Coordinated with technical teams to troubleshoot account issues and meet first-response and resolution SLAs.

ADDITIONAL ANALYTICS PROJECTS

Adidas sales and reseller performance (Power BI); Amazon supply chain and financial analytics (Power BI); SuperStore profitability analysis (Excel/Power Pivot); Coffee sales analytics (Excel/Power Pivot).

EDUCATION & TRAINING

Helwan University — Faculty of Arts | Cairo, Egypt

Bachelor's Degree | Class of 2025

Instant Software Solutions

Specialized Data Analysis Training Program | Completed curriculum

Coursework: SQL/MySQL, relational data modeling, EDA, DAX, and Power Query ETL.

LANGUAGES

Arabic: Native | English: Professional working proficiency
